**OPERATING INSTRUCTIONS FOR  
HOT STICK USED WITH LIGHTED DIAL**

I. DESCRIPTION

- A. The stick is included in the box with the unit. It is short and marked with a green band

II. HOW TO USE WITH LIGHTED UNITS

- A. Take the hot stick with the green band and screw it on the meter head probe with the green end closest to the meter head
- B. Attach the other hot sticks as you normally do

**NOTE: Always wear proper protective gloves when testing  
or working with High Voltage!**

III. HOW TO USE WITHOUT ACTIVATING LIGHT

- A Attach hot sticks to the unit making sure that the hot stick with the green band is not attached.
